

MN19 TRUCK REPAIR

Mobile Mechanic

Our mobile mechanic service trucks take priority over any other repair to get you back up and running quickly. Our team is on call 7 days a week and we pride ourselves on the repairs we can accomplish off site.

Easy Communications

We are completely paperless. Your receipt, your DOT paperwork, and before & after photos are all emailed directly to you. Never hunt for information again!

WE KEEP YOUR EQUIPMENT MOVING!

Minnesota 19 Truck Wash & Repair is located at 46057 State Hwy 19, and 650 Railroad Ave, both in Gaylord, Minnesota. We make it easy to get your equipment back on the road. We maintain one repair bay specifically for drop in repair requests to make sure your immediate needs are addressed without an appointment.

Bridgestone National Tire Dealer

We are a national account dealer for Bridgestone and can bill your account directly to save you time and money!

Fuel Delivery

Our mobile mechanic unit has a 50 - 100 gallon fuel cell. We deliver diesel fuel roadside or to your location.

Off Site Repairs

We schedule repairs & PM /DOT services at your location, or your customer's location, to save you transportation costs! We do not have distance restrictions or a geographical service area. You ask, we respond!

Services & Amenities:

- State Certified Scale
- Diesel Fuel Pumps
- Temperature Controlled Reefer Storage Trailer Leasing
- Dry Van & Yard Truck Leasing
- Large Equipment Leasing
- Cross Docking
- Recovery Loads / Tipped Loads
- Insurance Claims (document and photograph the load, the reefer setting or the damage)
- Exterior Washing & Sanitizing
- Interior Wash Outs

PREVENTATIVE MAINTENANCE:

Our shop specializes in Preventative Maintenance. Many large carriers have equipment that rotates through Gaylord regularly without the opportunity to get back to a terminal for upkeep. We complete PM and DOT inspections while equipment is already here in Gaylord. Our team will watch for overdue reefer services, expired PM stickers, and expired DOTs. We just reach out and you call the shots.

- ✓ Gelled fuel in the winter - No problem! We keep a large inventory of filters and parts
- ✓ Extra product- No problem! We store the rejected product or facilitate the donation!
- ✓ Chilly weather - No Problem! We offer plug in locations for your equipment and a heated shop.

THINK BIG

Not just engines and air lines! We have the capability to repair exterior trailer panels, insulation on reefers, interior skin, aluminum flooring & kick plate, frame & suspension, recharging reefers, timing, transmissions, head gaskets, pistons, DEF, and computer diagnostics. When it comes to large equipment, you name it, we do it!.
